of Correction

REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 CFR §1.322 and §1.323

Sir:

In accordance with the provisions of 37 CFR §1.322 and §1.323 which implement 35 USC §254 and §255, respectively, **Applicants respectfully request a Certificate of Correction** in the above-identified patent to correct errors in the printed patent.

The errors are listed below:

1. In the first paragraph of the patent, col. 1, line 3, the word "division" was inadvertently changed to "continuation".

Please note that the application for US Patent 7,101,349 was correctly filed as a divisional of the prior US Patent Application 09/931,974 (now US patent 6,963,019), and correctly designated as such in the first paragraph of the patent application as filed and in the Patent Application Transmittal. However, it was inadvertently designated as a continuation in the Amendment filed on April 29, 2005 due to a clerical error. While in this Amendment the word "continuation" was not marked for amendment, it was nonetheless amended by the United States Patent and Trademark Office, and the printed patent now reflects this error.

JUL 3 2007

2. In the first paragraph of the patent, col. 1, line 6, the date "Aug. 21" was inadvertently changed to "Aug. 18".

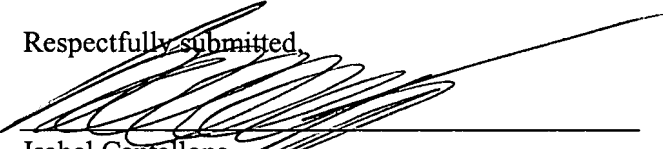

Please note that the filing date of the Provisional Application 60/226,602 to which US Patent 7,101,349 claims priority, was correctly specified in the Declaration filed along with the patent, as well as in the first paragraph of the patent application as filed. However, it was incorrectly listed as August 18, 2000 in the Patent Application Transmittal, as well as in the Preliminary Amendment filed on April 16, 2004. The filing date was properly Amended to August 21, 2001 in a Supplemental Amendment filed on August 16, 2004. However, in the Amendment filed on April 29, 2005, it was incorrectly listed again as August 18, 2000, due to a clerical error. While in this last Amendment the filing day of the Provisional Application 60/226,602 was not marked for amendment, it was nonetheless amended by the United States Patent and Trademark Office, and the printed patent now reflects this error.

3. In claim 15, col. 6, line 27, the word "loon" should be "loop". This typographical error of claim 15 was introduced by the United States Patent and Trademark Office during the printing process of the patent.

The Commissioner is hereby authorized to charge any fees to Deposit Account No. 50-0521.

Date: June 26, 2007

Respectfully submitted,

Isabel Cantallops
Reg. No. 57,710
